

1870 Stone County Census

TRANSCRIBED AND DONATED BY JOSEPHINE & PETER DUNNE © 1997

This transcription of the 1870 Stone County Census has been taken from a microfilmed copy of the original document. Due to the handwriting and the quality of the copy, there are some instances where we are not totally confident of our interpretation of the entries. In these cases a question mark has been inserted. No attempt has been made to "modernize" spellings, and an accurate reproduction of the entries has been attempted.

In the original census houses are numbered within each township and therefore the same house number can appear in several townships. To help in locating a family "index" numbers have been added to the census.
